SEAN WALSH
DIRECTOR

June 2005

Each year, the Governor's Office of Planning and Research (OPR) conducts the Local Government Planning Survey to compile the latest information on local planning activities and special issues. This edition of the *California Planners' Book of Lists* contains the results of OPR's 2004 planning survey.

The *California Planners' Book of Lists* also contains practical information that is useful to local, regional, and state planners and resource managers, including directories of city and county planning agencies, Councils of Government, Local Agency Formation Commissions, CEQA judges, and selected State and federal agencies that interact with local planning agencies. It also contains a table summarizing the status of local general plans, including the dates these plans were last updated as reported by the cities and counties. Additionally, it identifies local jurisdictions that have adopted plans, programs, and ordinances that may serve as models or examples for other planning agencies.

In keeping with OPR's continuing innovations in government efficiency and improving delivery of services to the public, planning agencies have the opportunity to electronically update information about their jurisdictions through the interactive *Book of Lists* available at www.calpin.ca.gov. Past editions of the *Book of Lists* are available to the public from the CALPIN website at www.calpin.ca.gov.

We hope that you will find this publication and the CALPIN website useful. Please let us know how OPR can continue to improve this service to local and regional planning agencies.

Sincerely,

Sean Walsh
Director

Berkeley	East Palo Alto	Irwindale	Los Angeles	Sierra Madre
Commerce	Ferndale	La Habra Heights	San Mateo	Yreka
Compton	Gardena	La Palma	Santa Clara	

Suggestions for how the relationship between the LAFCO and respective local jurisdiction could be improved with regards to collaborations and coordination on boundary-setting matters

Jurisdiction	Suggestion
Arcata	Have the State fund these mandates.
Berkeley	As a long-established and built-out city, we receive adequate communication from it and our relationship is adequate.
Commerce	better knowledge of the players involved with LAFCO
Corning	Our County LAFCO budget could be increased.
Culver City	Better understanding of LAFCO process for annexations and sphere of influence
Ferndale	Don't know if this is applicable since Ferndale's boundaries have stayed the same for many years and we are not contemplating expanding.
Fresno	More professional staffing for LAFCO
Gilroy	Following the intent of the law, rather than a VERY strict letter-of-the-law approach. Better understanding of local land use limitations by LAFCO.
Greenfield	By having even more meetings with LAFCO staff than we have had in the past.
Healdsburg	They are very cooperative. We meet annually and I bring major projects involving potential annexations before them in a preliminary fashion. They are very responsive.
Kern County	LAFCO director could provide more reasoned analysis based on consultation with affected cities, counties and property owners.
Laguna Woods	we typically don't have issues with sphere modification or boundary setting matter. Contact is minimal
Lawndale	e-mail
Los Angeles County	Establish policies; Closer LAFCO/Reg. Planning/Publ. Works coordination; LAFCO should send DRP annexation applications, set appropriate boundary discussion meetings; Ensure LAFCO hears County concerns during hearings.
Marysville	Engaging the City in dialogue with the Board of Supervisors and LAFCO on a quarterly basis.
Merced	Our local LAFCO still contracts w/ County Planning Staff for its staff needs, which can lead to conflicts of interest. An independent LAFCO staff would be better or even contracting w/ the local Association of Governments.
Monterey Park	Maintain active communication
Morro Bay	They just have not gotten around to the City of Morro Bay since it has not expanded and other cities in the county have.
National City	LAFCO could facilitate development projects by processing requests for annexation in advance of required City approvals, i.e., tentative maps.
Orange	The relationship between LAFCO and cities could be improved by greater adherence by LAFCO to OPR regulations and guidelines. LAFCO's ability to interpret OPR regulations without more involved guidance from OPR is problematic.
Paso Robles	N/A; we have an excellent working relationship.
Placer County	Remove politics from the decision making and rely on policies and good planning practices.
Pleasant Hill	No comment - good relationship
Poway	We have not recently had an opportunity to work with Lafco, so this question cannot be answered.
Redding	Remove County lead oversight Adopt a structure where all City's are represented equally with special districts and County
San Gabriel	The relationship is too bureaucratic. Formal notices are received with little follow-through or direct interaction. This could be partly due to funding.
San Mateo County	Better coordination with current planning to refer applicants who own property contiguous to cities to pursue annexation before developing in the County.

Jurisdiction	Suggestion
Santa Barbara County	LAFCO needs to give more serious consideration to adopted plans and policies of the cities and the county.
Santa Clara	Our city limits and USA are the same.
Simi Valley	None
Sonoma County	Could not be improved
Turlock	LAFCO made sure through their implementing policies that any jurisdiction who requested an annexation could not do so without an MSR. So if you wanted to get your annexation approved before 2008, you had to write your own MSR.
Walnut Creek	State regulation requiring agencies to adopt tax sharing agreements.
Windsor	Make LAFCO independent from the County
Yolo County	Timely comments during the project review/ CEQA review process, to avoid conflicts between agency-imposed conditions of approval and LAFCO- imposed conditions.
